

Seasonal Weather Outlook

- Current NOAA seasonal outlook prediction:
 - Above normal precipitation
 - Below normal temperatures

movement areas.

Priority 1.

closures.

Be advised that snow

Keep up to date on

removal will be addressed

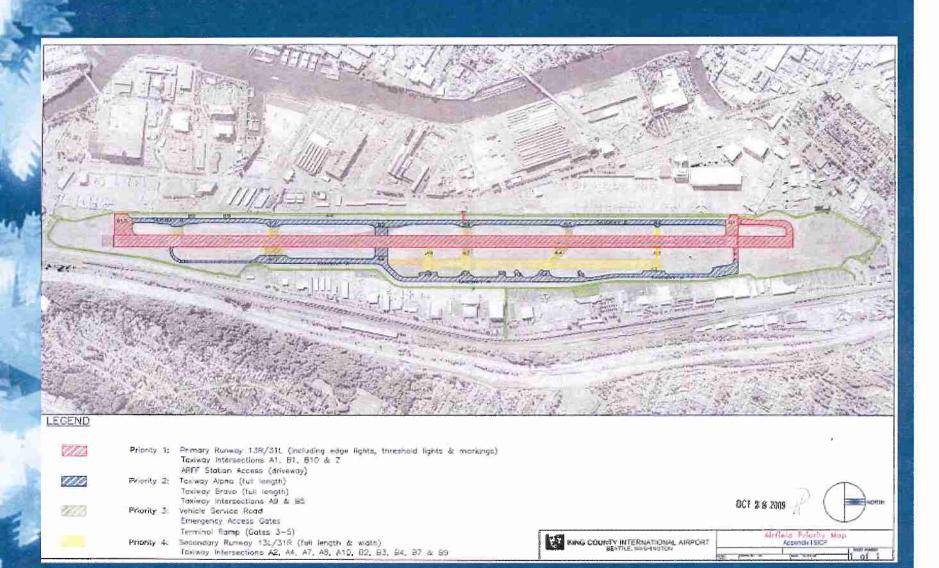

by priority, beginning with

current NOTAMs for any

Priorities

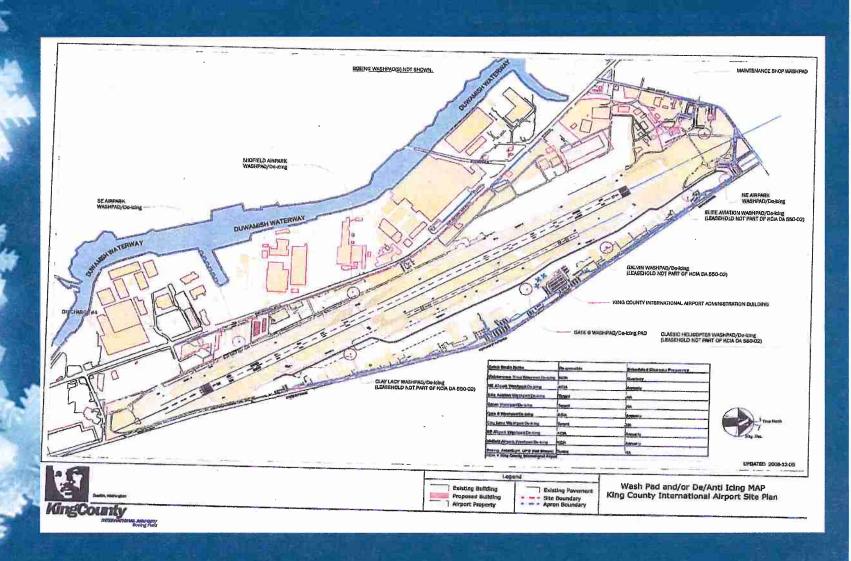

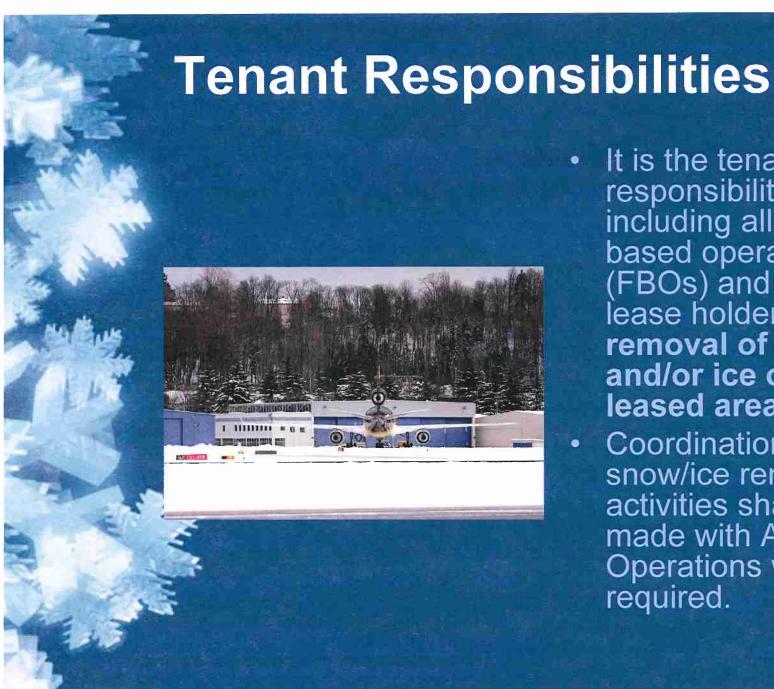

De-Icing

- Aircraft deicing is limited to designated wash pads that drain into the sanitary sewer system.
- Reservations for Gate 6 de-ice pad shall be made through Airport Operations.
- If, due to emergency circumstances, deicing has to be conducted outside of approved pads, prior approval must be granted through Airport Operations and the Airport Environmental Engineer.

All data for total product dispensed on ramp or into wash pads shall be provided to Airport Environmental Engineer.

De-Icing Locations

- It is the tenants responsibility, including all fixed based operators (FBOs) and other lease holders, for removal of snow and/or ice on their leased areas.
- Coordination of snow/ice removal activities shall be made with Airport Operations when required.
